

NEW EXTRA STRONG MAST EXTENSION VARIO 480

Nautix has developed a new EXTRA STRONG aluminium mast extension for windsurfers who require the best in terms of stiffness and resistance for their equipment.

Looking at the graph, you can notice that the best aluminium extension available today on the market breaks at around 400 kg..... Nautix new Vario 480 is more rigid and still resists over 700 kg.

This extra strong mast extension is the strongest available on the market. New Nautix Vario 480 will be perfect for freestyle, freeride or formula windsurfing rigs.
